To celebrate Earth Day on Wednesday, 4/22nd, try the **5 ITEM TRASH CHALLENGE!** This STEM challenge is a great way to think about recycling. Find 5 items that you can save *before* they go in the trash. Try to think of a way that you can combine those items or use parts from each to make a new tool, art project, or some other unique object. You can add tape (as a 6th item!).

Here is a picture of me showing the items that I am planning to use. I'm brainstorming ideas now!
